

# Union Power Wheel - Essential Union Capacities (Expanded)

# What Do We Mean by Essential Union Capacities?

If unions are strong in each of these essential capacities, they are in position to survive and thrive. The categories can be thought of as “spokes” of the Union Power Wheel. Just like with a bicycle, a weak or missing spoke leads to a bumpy ride. Multiple missing spokes make the wheel extremely vulnerable to any external challenges.

- *Building Internal Structures:* The skeleton and nervous system of the union, made up of committees, communication systems, leadership and decision-making norms, etc.
- *Organizing & Engaging Members:* Without an active and dues-paying membership, unions die (more quickly in the open shop). We must constantly reach out to new employees and run campaigns engaging the entire unit to remain healthy.
- *Developing Coalitions & Political Action:* Our members live and work in a broader world, and one of the ways we make things better as unions is working together with allies to improve our communities and make our political systems more fair and equitable. This takes education, volunteers, and money.
- *Negotiating & Problem-Solving:* The bargaining table is only the most obvious example of this essential activity. The core reason unions exist is to build power to confront problems that are too big for us as individuals. This happens through collective bargaining, but also many other types of campaigns--from policy changes at the municipal or state level to informal negotiations with building-level supervisors about how to deal with unexpected challenges.

# Using the Evaluation Tool

**Essential Union Capacities:** Each overarching capacity is divided into components. Each strand has three columns with checklists of descriptive qualities, reflecting increasing power from left to right.

1. Read through each strand from left to right and check off the qualities that are currently true for your union *from your perspective*. (If an item catches your eye that would be good to work toward, circle it)
2. After completing all strands, look at the overall pattern and assign an overall rating for the page by placing a mark somewhere within the bottom “Feels like” scale.
3. After completing each page, place a star next to any area where you would like to focus your union’s growth.
